

Amendments to the Abstract:

Please amend the paragraph below the heading "Abstract" as follows:

~~The invention relates to a~~ A plug-in connection for pipe and hose lines with a reinforced material cross-section. ~~Said~~ The connection ~~consists of~~ includes a ~~neck~~ nozzle that forms at least one ~~detent collar~~ catch shoulder and a connector that can be engaged with the ~~neck~~ nozzle and has at least one ~~detent~~ catch spring with ~~detent limbs~~ legs, the latter locking behind at least one of the ~~detent collar~~ catch shoulders of the ~~neck~~ nozzle. In order for the connector to absorb ~~intense~~ detent high insertion and axial pulling forces, ~~it is characterized by at least a double wall~~ is disposed at least in the vicinity of the ~~detent~~ catch spring openings.
